

## BERWYN EMERGENCY MANAGEMENT

Tony J. Laureto, Coordinator

### *Planning is the Key To Surviving a Disaster or Emergency*

#### City of Berwyn

The public comment period on the draft Cook County Hazard Mitigation Plan is now open. Due to the large size of the HMP, we have loaded the draft document onto the Cook County Hazard Mitigation Plan website so that all Planning Partners can access it. You can access the draft HMP at <http://www.cookcountyhomelandsecurity.org/hmp-draft-plan/>. Volume 2 contains the jurisdictional annexes (Berwyn), arranged alphabetically, and has been divided into parts to make it easier to download. Please be advised that these are still very large files and it may take several minutes to download.

Please review your annex carefully. Revisions have been made to the annex you submitted and this is your opportunity to provide comments on those changes. One change to note is the list of mitigation action items, which may have been supplemented by the Planning Team. This was done to maintain flexibility for future grant funding for mitigation projects. These mitigation actions begin with terms such as "consider" or "investigate", which do not commit you to any specific action.

Volume 1 of the draft HMP is also available on the project website. While your review of this document is not necessary, the Planning Team would appreciate any comments you may have on Volume 1, in addition to your annex.

Use the "Cook County HMP Comment Tracking Sheet" Word document (attached to this email) to provide us your comments. Fill out the comment table, save your comments onto your computer, and email me your comments as an electronic file.

**Note: All comments are due by 5:00 PM Tuesday, June 10.**

If you have any questions or issues accessing the Cook County Hazard Mitigation Plan website or downloading the files, please contact me.
